

FRI[™]

Fri[™] is an easy chair designed by Jaime Hayon. Fri[™] is designed to create a cosy feel in any setting. Of course, it takes more than a chair to create that ambience, but Fri[™] is a first step towards bringing this exceptional atmosphere into your life, as Fri[™] is designed to put you in the mood for connecting with others and to contribute a pleasant and open atmosphere. Fri[™] creates a space where you can feel relaxed and comfortable without feeling withdrawn or unapproachable. Where you can spend quality time and take part in the meaningful moments of everyday life at home, at the office or in a restaurant.

JAIME HAYON 1974-

"Design needs to solve the problem and be long lasting - off-course. But it is important to remember that my design is made for humans - to be used by humans. I believe that design should provoke emotions. Design should make you feel good. Create happiness."

Spanish artist-designer Jaime Hayon was born in Madrid in 1974. Franco died the same year and Spain was a new, fresh and dynamic country. Jaime Hayon was raised with freedom. For him growing up in Spain in the eighties was a period with an explosion of emotions and all this has impacted him later on as a designer. As a teenager, he submerged himself in skateboard culture and graffiti art, the foundation of the detailed, bold yet whimsical imagery so imminent in his work today. After studying industrial design in Madrid and Paris he joined Fabrica in 1997, the Benetton-funded design and communication academy, working closely with the legendary image-maker and agitator Oliverio Toscani. In a short time he was promoted from student to head of their Design Department. Eight years later, Jaime broke out on his own, first with his collections of designer toys, ceramics and furniture, later followed by interior design and installations. Jaime's knowledge of artisan skills and his creativity have resulted in collections for a diverse range of clients. He is also currently working on interiors for hotels, restaurants and retail establishments around the world.

Jaime resides in Valencia, Spain with offices in London, Barcelona and Treviso (Italy). His work has appeared in the art and design publications worldwide and he has won numerous awards.

DESCRIPTION

Easy chair designed by Jaime Hayon, manufactured by Fritz Hansen.

The shell of the chair is created in hard polyurethane foam with glass fibre re-enforcement of the edges as the Egg™ and the Swan™. The seat cushion is made of moulded polyurethane foam to achieve the right form and comfort. The back cushion on the chair is made of two slices of soft foam with a lumbar support to increase economy and comfortability. The shell and cushions come fully upholstered in fabric or leather.

The base comes with four legs made of brushed or powder coated aluminium. The powder coated legs are made in colours matching the upholstered shell and cushions and are only available for a selection of the designer colours. Each leg has nylon glides suitable for a majority of floors.

DIMENSIONS

Depth: 88 cm / 34.6"

Width: 80 cm / 31.5"
