

SERIES 7[™]

The Series 7[™] designed by Arne Jacobsen is by far the most sold chair in the history of Fritz Hansen and perhaps also in furniture history. The pressure moulded veneer chair is a further development of the classic An[™] chair. The four-legged stackable chair represents the culmination of the lamination technique. The visionary Arne Jacobsen exploited the possibilities of lamination to perfection resulting in the iconic shape of the chair. Series 7[™] represents the chair in the Fritz Hansen collection with the widest range of applications.

ARNE JACOBSEN 1902-1971

The cooperation between Arne Jacobsen and Fritz Hansen dates back to 1934. But it was in 1952 the break-through came with the Ant™. It was succeeded by the Series 7™ in 1955. This propelled his and Fritz Hansen's names into furniture history.

Arne Jacobsen was very productive both as an architect and as a designer. At the end of the 50's Arne Jacobsen designed the SAS Royal Hotel in Copenhagen and for that project also the Egg™, the Swan™, the Swan Sofa™ and Series 3300™.

Arne Jacobsen was and is an admired and outstanding designer. While the significance of Arne Jacobsen's buildings was less appreciated, his furniture and other design work have become national and international heritage.

The shell is made in pressure molded veneer. The inner veneer is always beech and the outer veneer is available in 9 different veneers: Maple, Beech, Ash, Elm, Oak, Oregon Pine, Cherry, Walnut or Dark Stained Oak. The children's chair (3177) is only available in Beech or Walnut.

The chair is also available in two finishes: Coloured ash (lazur) or Lacquered, in 12 different colours: White, Black, Nine Grey, Egyptian Yellow, Chevalier Orange, Opium Red, Ai Blue, Hüzün Green, Evren Purple, Chocolate Milk Brown, Altstadt Rose and Trieste Blue. The range of accessories includes short and long linking devices, writing tablet (only 3107), transport dolly, large seat cover for improved stackability on upholstered chairs, felt glides and an upholstered seat cushion in a limited range of fabrics and leathers.

ENVIRONMENT & TESTS

In case of repair and disposal the chair can be disassembled into two parts (shell and base). The base and all other metal parts can be recycled. Check local regulations for recycling in your area and whether there is potential for reuse.

Un-upholstered chairs are coated with polyurethane lacquer, which prevents the emission of formaldehyde.

The Series 7™ is tested according to EN 1728, EN 13761 and BS 4875 for strength and durability and EN 1022, ISO 7174-1 and BS 7945 for stability.
