

LC Shutters

- Design

Louise Campbell
- Concept

The fixture emits a primarily downward illumination. The perforated pattern on the shade provides a soft illumination around the fixture. Meanwhile, the perforation helps lighten up the surface of the shade in a decorative way, when it is turned on, thereby maintaining the contour of the fixture, whether it is on or off. The light source is surrounded by an opal diffuser, which ensures that the fixture is 100% glare-free, and that the fixture is suitable for several types of light sources providing the same light distribution and comfort. And finally, the shape of the diffuser allows a beautiful view into the fixture.
- Finish

White, powder coated. White, powder coated with colored foils.
- Material

Shade: Spun aluminum, punched and embossed. Suspension: Die cast aluminum. Diffuser ball: Rotation molded PE Plastic.
- Mounting

Cord type: 3-conductor, 18 AWG white PVC power cord. Canopy: White. Cord length: 12'.
- Weight

Max 6.6 Lbs.
- Label

cULus, Dry location.
