

R 109N *sideboards*

Mobile Line

What you want, where you want it. Mobile Line is a design idea for beauty, functionality and individuality in one. The 2.5 mm metal is machined by us using a manual press, welded by hand and finished in all RAL colours, even two-coloured. Mobile Line furniture is durable and strong and will fit in with any new home or workplace design. All Mobile Line sideboards can be delivered either with industrial or transparent castors or anodised aluminium legs (H 12,5 cm). Sideboard RW 109 is equipped with 1 hinged door. By means of the partition wall in the middle of the sideboard, 2 separate compartments can be utilized. Handy: there is a cable slit across the entire backside at the bottom.
