Meda Chair

Meda Chair embodies the successful combination of comfort, technology and elegant aesthetics. As with all his products, Alberto Meda's work on the Meda Chair was influenced by his knowledge of engineering. Pairing lightness with technical functions, the chair reflects his characteristic design vocabulary.

In addition to the office version of the Meda Chair, the Meda Conference chair is available for meeting environments.

The Meda Chair responds to the sitter's movements through an ingeniously simple construction that offers synchronised flexibility of movement, without requiring a complicated mechanism in the seat mount: the backrest tilts backward on two lateral pivot points, which simultaneously adjusts the seat angle – for a smooth, ergonomically correct range of movement and exceptional comfort. With this combination of comfort, technology and aesthetics, the Meda Chair is also well suited for use in the home.

Meda Conference

Thanks to its discreet appearance, the Meda Conference chair can be used with the Meda Chair as well as many other office chairs. With its synchronised range of motion, Meda Conference offers a high degree of comfort.

Meda Chair

- **Office swivel chair according to EN 1335.**
- **Synchronised movement:** individual adaptation of backrest resistance. High backrest can be locked in any position.
- **Backrest and seat:** polyurethane foam seat padding. Sling-style upholstery elements stretched over the backrest and seat. Backrest cover in leather or double mesh fabric. Seat cover in Nova fabric or leather. For leather covers, the reverse side of the backrest and the underside of the seat are both in black fabric.
- **Armrests:** choice of fixed height, adjustable height or ring armrests in polished die-cast aluminium, all with leather pads.
- **Base:** five-star base in polished die-cast aluminium. With double castors in basic dark.

Meda Conference

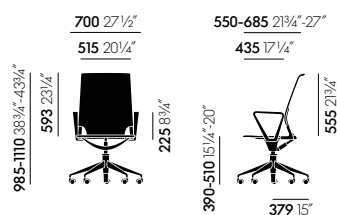

- **Backrest and seat:** polyurethane foam seat padding, medium-high backrest. Sling-style upholstery elements stretched over the backrest and seat. Backrest cover in leather or double mesh fabric. Seat cover in Nova fabric or leather. For leather covers, the reverse side of the backrest and the underside of the seat are both in black fabric.
- **Armrests:** plastic (basic dark) or polished die-cast aluminium with leather pads.
- **Base:** four-star swivel base in polished die-cast aluminium on glides.
