## Miniatures Collection

For over two decades, the Vitra Design Museum has been making miniature replicas of milestones in furniture design from its collection. The Miniatures Collection encapsulates the entire history of industrial furniture design – moving from Historicism and Art Nouveau to the New Objectivity of Bauhaus and Radical Design, and from Postmodernism all the way up to the present day. Exactly one sixth of the size of the historical originals, the chairs are all true to scale and precisely recreate the smallest details of construction, material and colour. The high standard of authenticity even

extends to the natural grain of the wood, the reproduction of screws and the elaborate handicraft techniques involved. This has made the miniatures into popular collector's items as well as ideal illustrative material for universities, design schools and architects.
