## Mochi

Like all pieces created by Hella Jongerius, Mochi bears the clear signature of the Dutch designer: with its lovingly crafted details and contrasting colour combinations, this soft seating object adds a bold accent in any living environment. Mochi is both a spontaneous seating option and a decorative ottoman for lounge chairs and sofas.

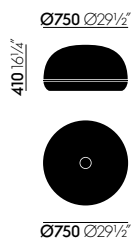

The form-fitting knit cover was specially

developed for Mochi and is easy to remove and clean. Thanks to the robust bottom surface, the pouf can be used everywhere.
