

Tray Table

George Nelson, 1949

vitra.

Tray Table

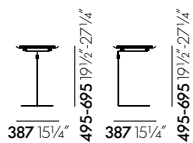

The Tray Table is distinguished by its simple elegance and refined structural elements. Thanks to the easily adjustable height and asymmetric design, this small occasional table can be placed directly next to an armchair, a sofa or even a bed. This makes the Tray Table a reliable

companion with many applications throughout the home.

Materials

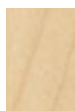

- **Table top:** plywood.
- **Base:** chrome-plated tubular steel, height-adjustable.
