## Aalto foldable table DL81C

Crafted for compact living, the Aalto foldable table extends effortlessly to offer increased seating and storage space. Returning to the Artek collection, the foldable table has all the virtues of an Aalto Table – universal, durable, versatile – in a new typology. Matching perfectly with a wide variety of chairs, the Aalto foldable table will serve any number of occasions in the smallest spaces.

## Limited colour editions

To celebrate the launch of the Aalto foldable table, three limited two-tone linoleum editions are available: clay/walnut, pistachio/olive and vapour/smokey blue. Inspired by sought-after vintage foldable tables available at Artek 2nd Cycle, the two-tones echo the different levels of patination observed. This colour variation occurs naturally over time as the drop leaf can be kept closed when not in use, resulting in differing levels of exposure to light and contact. The drop leaf thus ages beautifully at a different rhythm to that of the table top.
