

Twiggy Grid, outdoor

by Marc Sadler

FOSCARINI

DESCRIPTION

A lamp-icon in its outdoor version. Based on the image of a fishing rod as it curves, Twiggy Grid embodies its flexibility, clarity and strength, gathering them into an object with a vivid personality. In the outdoor model Twiggy returns to the wide open spaces. The shade is modified, with a woven surface that has both functional and aesthetic value: it makes it possible to screen the intensity of the light source, while at the same time establishing a dialogue with surrounding forms – nets, gates, the crossing of tree branches.

MATERIALS

Coated fiberglass-based composite material, PMMA, coated metal and aluminium

COLORS

Carmine, Greige

MARC SADLER

Marc Sadler cuenta con una larga experiencia como diseñador industrial en el sector del deporte, que lo ha llevado a menudo a experimentar nuevos materiales y procesos de producción innovadores.

Este enfoque innovador y experimental se ha convertido en su forma de trabajar, incluso cuando diseña para sectores que están tradicionalmente más atentos al componente estético. Ha ganado cuatro Compassi d'Oro ADI, como el recibido por Mite y Tite en el 2001, proyectos que se han convertido en auténticos iconos de la colección Foscarini, junto con Kite, Twiggy, Tress y Jamaica, cada uno basado en la innovación tecnológica y estética.
