

# IKERU VASES HONOUR EVERY FLOWER

Playful function from Jaime Hayon

Ikeru vases by Jaime Hayon are simple designs for flower arrangements, inspired by the Japanese art of 'Ikebana'. Metal flutes hold individual flowers for a full appreciation of every flower from many angles. Water in the glass trays below keep flowers fresh.

Overall, the designs are transparent and direct in their intention to honour every flower placed within them. Ikeru is an invitation to appreciate nature or to create an arrangement to share.
