- Contemporary yet timeless take on a classic typology gives it a compact and distinctive design
- Developed with optimal craftsmanship and ergonomics in mind
- The chair's name refers to the classic carpentry tool and is echoed in the bevelled legs
- The seat and backrest provide good support in a visually inviting way
- Comes in a wide variety of wood types, colours, and front upholstery options
- Suitable for a wide variety of private and public environments
- Qualified for contract use

CHISEL LOUNGE CHAIR

DESIGN BY ANDREAS BERGSAKER

Designed for HAY by Norwegian designer Andreas Bergsaker, Chisel Lounge Chair is a contemporary yet timeless take on the ever-relevant moulded plywood chair. Named after the classic carpentry tool, Chisel was created from the desire to design a solid wooden chair with a distinctive silhouette that would stand the test of time. Developed with optimal craftsmanship and ergonomics in mind, the chair's soft, organic seat and backrest provide good support in a visually inviting way, complemented by angled legs that echo the chisel references with their characteristically bevelled edges. Chisel Lounge Chair's wide variety of wood types, colours and front upholstery options, combined with its compact size makes it ideal for use in most domestic and public settings, from living rooms and bedrooms to waiting rooms, lobbies, and libraries.

Andreas Bergsaker (b. 1990) is a Norwegian product designer based in Copenhagen, Denmark. He graduated with a master degree in Product Design from Oslo and Akershus University College of Applied Sciences (HiOA) in 2015. His work covers different everyday objects, designed for product longevity and generations to come. His designs are rooted in exploration of material and shape, and referencing cultural heritage with emphasis on traditional craftsmanship, industrial production processes and tactile qualities. His work has led to exhibitions in London, Milan, New York, Oslo and Stockholm. For HAY, Andreas Bergsaker has designed Korpus Shelf and Chisel Lounge Chair.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
