- FSC™-certified and EU-Ecolabelled
- Suitable for a wide variety of private and public environments
- Qualified for contract use

J104 CHAIR

DESIGN BY JØRGEN BÆKMARK

Jørgen Bækmark's J104 Chair was designed as a cross between a dining chair and an easy chair, HAY's reproduction of this classic is crafted in solid oak or beech and available in a variety of oiled, natural or coloured finishes.

Joergen Baekmark (1929 – 2021) is a Danish designer who worked at the FDB furniture design studio from 1958 until 1967. He trained as a cabinet maker and took courses in the applied arts, he is known for a particular lightness of touch and for pioneering flat-pack furniture for export. FDB (Fællesforeningen for Danmarks Brugsforeninger) is the Danish Consumers Cooperative Society, more widely known as Coop. The FDB furniture department played a pivotal role in revolutionising the industry in Denmark, it was founded in 1933 and in 1942 Børge Mogensen was installed as design director. His pioneering approach was distinguished by a desire to create simple, elegant and practical design intended for mass consumption. At FDB, Baekmark was initially tasked with designing lightweight pieces for export, such as the JW08 chair, and later went on to become the head of FDB furniture department himself. His designs now produced by HAY are the J104 chair.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
