- Features wide seat and curved spindled back with armrests
- Available in different colours and finishes
- FSC™-certified and EU-Ecolabelled
- Suitable for a wide variety of private and public environments
- Qualified for contract use

J42 CHAIR

DESIGN BY BØRGE MOGENSEN

HAY's reproduction of Børge Mogensen's classic J42 Chair clearly reflects his design philosophy. Precise proportions with simple horizontal and vertical lines are used to construct a curved spindled backrest and angular armrests. Crafted in solid wood the design has a timeless quality that is built to provide lasting comfort. Available in oak or beech in a variety of oiled, natural or coloured finishes.

Børge Mogensen (1914 – 1972) is known as one of the great Danish designers of the twentieth century for his quality furniture and strong, minimalist designs. Characterised by simple, solid lines and durable construction, his clean aesthetics and precise proportions embody Danish modernism. Having initially trained as a cabinet-maker before studying furniture design at the Danish School of Arts and Crafts, Børge Mogensen later studied architecture at The Royal Danish Academy of Fine Arts. He later became design director at the Danish Co-Operative Society, FDB, where he focused on creating well-designed, functional furniture that could be industrially produced for the general public. HAY has recreated Børge Mogensen's timeless J41 and J42 chairs, which were part of the J-Series he designed during his time at FDB.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
