

DESIGN BY DOSHI LEVIEN

HAY

QUILTON

HIGHLIGHTS

- Quilton is a multi-functional sofa designed by Doshi Levien with the flexibility of a modular system
- The quilted upholstery encapsulates the softness and volume of the foam and wadding seats, offering a high level of comfort
- The modules can be customised into individual sofa combinations
- Available in a wide variety of fabric and leather options
- Suitable for a wide variety of private and public environments
- Qualified for contract use

QUILTON DESIGN BY DOSHI LEVIEN

Described by the designers as a 'quilted landscape sofa system', Quilton serves as a central platform for living, working, socializing, and relaxing. Offering a wide assortment of different modules, Doshi Levien's multi-functional sofa provides the flexibility of a modular system with generous dimensions and sculpted forms. The finely-detailed quilted upholstery is available in numerous options, encapsulating the softness and volume of the foam and wadding seats and creating exceptional comfort. Quilton takes sofa design to a new level of versatility that makes it suitable for a wide range of domestic and public spaces.

Doshi Levien is a London based design studio founded in 2000 by Nipa Doshi (b. 1971) and Jonathan Levien (b. 1972). Doshi grew up in India and studied at the National Institute of Design, while Jonathan, who is from Scotland, trained in fine cabinet making followed by industrial design. They met while studying at the Royal College of Art. They have established a strong reputation for creating design that is both technically advanced and imbued with cultural resonance. They have been internationally acclaimed for their work and in 2008 were awarded the prestigious Future Legends of Design by the Cooper Hewitt National Museum of Design in New York. Together, they bring to bear a complimentary set of skills to the projects they work on. Doshi is primarily concerned with visual culture, an aesthetic understanding of the world and the materiality of things, while Levien is more focused on industrial precision and technique. They have worked on projects for industry leading companies and institutions in the fields of furniture, fashion, homewares, technology and lighting. For HAY, they have created the Uchiwa Lounge Chair, Dapper and Quilton.

Nipa Doshi and Jonathan Levien in their studio in London

Quilton 3 seater | Vidar 932

Quilton combines Nipa Doshi's inherent visual understanding and Jonathan Levien's industrial precision.

The designer duo have a tactile design process, using colour and sculpting to create their products.

The wide assortment of different modules enables users to create personalised expressions.

The two designers described their multi-functional sofa as a 'quilted landscape sofa system'.

Doshi Levien's design studio in London, where Quilton's soft sculpted forms and voluminous size take centre stage.

CERTIFICATES & TESTS

FSC™ MIX 70%
Made from FSC™-certified wood
and other controlled materials.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
