VOYAGE PENDANTS,  
2016

Inspired both by French vintage industrial lamps and a boyish fascination with space travel, in VOYAGE Pendants, material and aesthetic fully align. Although made of hand-spun aluminium, the lamps take on a ceramic look due to the matt silk sheen of their industrial lacquer surface, and the way their lower edges are bent in towards the light source.

The VOYAGE Pendants collection includes three series, which each featuring three size variants of the same geometric form. With nine different lamps and two suspension types – either metal or wood – the elements can be combined across the series to create diversity without compromising the consistency of their modern industrial expression.
