

FIBER LOUNGE CHAIR - WOOD BASE

ISKOS-BERLIN ON THE DESIGN "One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Chair to do just that through a clear and sculptural language that refuses to compromise on comfort, embracing the body of its user. With a light and almost hovering appearance, the design joins soft, friendly curves with an innovative wood fiber composite, giving the Fiber Lounge Chair a unique expression and inviting seat."

DESCRIPTION

With extensive comfort and a lightly hovering appearance, the Fiber Lounge Chair invites the user in for a relaxed and comfortable seat. The design features soft and embracing curves for a welcoming look, making it an elegant match for any setting of the home, workplace or hospitality area. Non-upholstered variants of the Fiber Stool are made from a combination of recycled plastic (min. 80% is recycled) and FSC™-certified wood fibers. The wood fibers blend into the surface for a matte finish and add a soft, inviting touch.

At the end of its life, this product can be disassembled, supporting circularity. All non-upholstered versions of this product are marked with recycling 5, meaning that is 100% recyclable to be used in future production and thus lowering material waste.

MATERIAL

Shell - Fiber Lounge Chair without upholstery: The plastic of the shell is made using minimum 80% recycled plastic. The plastic is mixed with up to 25% FSC™-certified wood fibers. The seat is made of plastic that is climate compensated.

Shell - All other variants: Shell in plastic composition with up to 25% wood fibers.

Base - Wood base in FSC™-certified oak or ash with water based lacquer.

Please note that variants with recycled plastic and FSC™-certified wood is not available in North America.
