

# Pair Candleholder

“In the early stages of designing the Pair Candleholder, I was drawn to the simplicity of a single extrusion designed to hold four candles. The initial shape was an X when viewed from above. As I worked with the idea, a new thought emerged: splitting the X into two parts could create a more intriguing and modular design that invited personal expression through its flexibility.”

— Lars Tornøe

Designed by	Lars Tornøe
About the Designer	Lars Tornøe has received several prestigious awards, including Designer of the Year in Norway and the Award for Design Excellence. His work has been showcased at numerous international exhibitions, with The Dots for Muuto featured in a past exhibition at the Danish Design Centre.
Environment	Indoor
Country of Production	China
Preassembled	Yes
Description	The Pair Candleholder invites creativity, offering the opportunity to combine two or more pieces and explore various height and color combinations or display a single piece as a refined accent on its own. Crafted from anodized aluminum, its smooth curves and finish add a playful yet refined touch to any space.
Material	The candleholder is crafted from a single piece of extruded aluminum, shaped with precision. The candle holes and the edges are made and refined through CNC milling, and the surface is anodized for both durability and a sleek, matte finish.
Cleaning & Care	Wipe with a dry cloth to remove dust. To clear away wax, pour boiled water over the surface and dry thoroughly.
