

Tabouret Bois

Jean Prouvé, 1941

vitra.

Tabouret Bois is a simple, robust stool made of solid wood that reveals the designer's signature at first glance: its clear structural principles can be found throughout the work of Jean Prouvé. Thanks to the flat, even surface of the seat, Tabouret Bois can also be used as a small side table.

Materials

- **Seat and base:** solid wood in oak, natural, lacquer finish; oak, dark oak, lacquer finish, or American walnut, natural, oiled finish; connecting element: sheet metal, powder-coated (smooth) in deep black.
- **Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland; American walnut (*Juglans nigra*) from the USA.

DIMENSIONS (in accordance with EN 1335-1:2000)
